SUPPORTED ACCOMMODATION EVALUATION FRAMEWORK

ABOUT THE PROJECT

Stronger Together sets out the NSW Government’s 10 year plan to support people with disability and their families and carers. Supported accommodation is one of a range of support services available to a person with disability. It can be provided together with other programs as appropriate to the individual, including local support coordination, behaviour support services and services provided by community support teams.

This project aims to develop an evaluation framework and baseline data collection to assess the effectiveness of new supported accommodation and funding models introduced under the second phase of the plan: Stronger Together Two.

The data collection will include surveys, interviews and other adapted methods to facilitate the participation of stakeholders with and without disability. The completed evaluation will include a literature review, in addition to the baseline data collection and analysis.

PROJECT TIMEFRAME

February – September 2013

PROJECT PARTNER

The Social Policy Research Centre at the University of NSW are the lead agency for this project.

RESEARCH TEAM

Dr Sally Robinson
Robert Strike (Community Evaluator)

SPRC Staff involved include:
A/Prof Karen Fisher
Dr Christiane Purcal
Ariella Meltzer (Research Officer)
Anna Jones (Research Officer)
Christine Eastman (Senior Research Officer)
Deborah Lutz (Research Officer)
Philip Hayes (Research Associate)
Rosemary Kayess (Senior Research Fellow)
